### Example: COMFORT active Balanced from CHF 100 000

The monthly price calculation of the basic price is based on the holding and the total value of the account and portfolio balances (including fiduciary investments and time deposits) and takes place on the first day of the month (excluded Saturday, Sunday and January 1st) concerned.

The basic price is calculated quarterly and charged to the corresponding asset management account. If the investment package or portfolio is closed, the client will be required to pay the entire basic price due for that month (no pro rata calculation). Third-party fees and taxes (e.g. federal stamp duty, stock exchange charges) are not included in the basic price and are invoiced separately.

In addition to the basic price, the profit-outperformance participation is based on the annual performance in the reference currency of the previous year and is charged once a year in the first quarter. If the performance-based price model is closed, the profit-outperformance participation of the chosen investment strategy, is settled pro rata.

## Third-party payments

SGKB may receive sales remuneration or other monetary benefits from third-party or group companies of SGKB for the distribution of investment products such as collective investments or structured products (third-party payments). This remuneration is for ensuring that the organizational requirements for sales (e.g. product research, ongoing monitoring of products and compliance with regulatory requirements) are met. The table below shows the bandwidths of third-party payments that SGKB receives in return for the costs it has incurred:

The monthly calculation of the refund is based on the holding of investment funds subject to sales remuneration and takes place on the first day of the month (excluded Saturday, Sunday and January 1st). The refund price is calculated quarterly and credited to the corresponding service account. If the investment package or portfolio is closed, the client receives the sales remuneration accrued until such time (no pro rata calculation).

More information including calculation examples can be found in the fact sheet «Third-party payments in investment business» at «[www.sgkb.ch/drittverguetungen-anlagegeschaef-en](http://www.sgkb.ch/drittverguetungen-anlagegeschaef-en)».
