

COMFORT – Your benefits at a glance

Opting for the COMFORT investment package will enable you to devote more time to your own projects and ideas. That's because your assets will be managed on a round-the-clock basis by experienced investment specialists. You can sit back and leave the tasks of analysing and constantly monitoring the financial markets, evaluating attractive investment opportunities and executing transactions, along with the associated paperwork, to our experts.

Time savings

You do not need to concern yourself with the daily ups and downs of the stock markets. Investment specialists with many years of experience and a long-term perspective monitor economic developments around the world on your behalf.

Independence

St.Galler Kantonalbank is not tied to its own products and can therefore provide you with neutral, objective and independent advice.

Transparency

You are sent comprehensive reports providing details on transactions and the performance of your portfolio. We are committed to transparent pricing structures and pass on the third-party payments on collective investments to you.

Diversification

Our asset management approach ensures that your investments are suitably diversified. This diversification minimizes the risk of your portfolio.

Quality

We systematically manage your assets in accordance with your agreed strategy on the basis of a structured investment process. Your portfolio is monitored continuously.

Additional services

Included in the price is also detailed reports and all the documents required for your tax return (only available for selected countries).

“What we recommend to our clients is also good for St. Galler Kantonalbank. We have complete faith in our Investment Center specialists. That's why CHF 30 million of our assets are invested in the COMFORT asset management mandate.”

Roland Ledergerber
CEO of St.Galler Kantonalbank AG
